

# Fish and Wildlife Programs

More than one tool may describe the status of species on your property and meet your specific goals. To assist you in learning our language, a glossary of terms is on page 22.

| Question                                                                                             | Your Needs and Concerns                                                                                                                                                                                              | Tool                                                                                                                                                                                             |
|------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Do you have a listed species (or habitat for one) on your land?</b>                               |  <b>Would you like to manage your land in a way that aids in species recovery and provides flexibility in the use of your land?</b> |  <b>Take a look at Safe Harbor Agreements—pages 6, 7</b>                                                      |
|                                                                                                      |  <b>Are you considering an activity that could adversely impact the species or its habitat?</b>                                     |  <b>A Habitat Conservation Plan may cover your land-use activities and conserve listed species—pages 8, 9</b> |
|                                                                                                      |  <b>Would you like to manage your land in perpetuity for the species if you could generate income by doing so?</b>                  |  <b>Conservation Banks may be of interest to you—pages 10, 11</b>                                             |
|                                                                                                      |  <b>Are you considering a Habitat Conservation Plan or permanently protecting the habitat?</b>                                      |  <b>A Section 6 Grant may be a source of funds—pages 12, 13</b>                                               |
| <b>Do you have a candidate or at-risk species (or habitat for one) on your land?</b>                 |  <b>Would you like to conserve the species to prevent the need to list under the Endangered Species Act?</b>                      |  <b>See Candidate Conservation Agreements with Assurances—pages 14, 15</b>                                   |
|                                                                                                      |                                                                                                                                                                                                                      |  <b>Explore Candidate Conservation Agreements—pages 16, 17</b>                                              |
| <b>Would you like to help to maintain or restore habitat for imperiled species on your property?</b> |                                                                                                                                                                                                                      |  <b>Private Stewardship Grants may be a source of funds—pages 18, 19</b>                                    |
|                                                                                                      |                                                                                                                                                                                                                      |  <b>Partners for Fish and Wildlife may be a source of funds—pages 20, 21</b>                                |
